| _____ (Signature of person authorized to sign) | | | | BY _____ (Signature of Contracting Officer) | | |

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

SF30

Q1. In regards to 3.1.5 Provide temporary power service for each stowage space.

- It means we have to set the outlet inside container?

A. Yes, a power outlet is required inside the container.

Q2. In regards to 3.1.6 Provide each stowage space with 28 foot candles minimum of lighting with explosive-proof lights, one non-sparking electric exhaust vent fan and one 115VAC, 15amps power receptacle.

- It means we have to set the explosive - proof lights as candle type light?

A. The explosion proof lights measurement of light intensity is about 28 foot candles but not the candle type light.

Q3. Please see the attached file. Can we use this type of explosive-proof light?

A. Yes, as long as it is explosion proof, it is acceptable.

Q4. Could you give us a drawing of lights, exhaust vent fan and power receptacle location?

A. I do not have the drawings available but the link below should give the KTR a better understanding of the below information:

1. Explosion proof lights in two locations overhead
2. One exhaust vent fan located on the aft end side and at least between 6 to 12 inches from overhead
3. One receptacle located at the front section of the Conex Box but at least 18 inches above the floor/deck.
